## Hot dog cart plans pdf downloads free online free

In the city or out in the country - it doesn't matter. Click on it to watch it below. These are features that weren't available on any commercial cart until very recently. The average person should be able to put this cart together in a few days. Nice job! Watch a video from one of our hundreds of satisfied customers. We show you how to do it in the videos. In a season or two you could have five carts out there earning money for you. As you can see - it surpassed all of my expectations... Here's What You Get... 60 Step by Step Interactive Construction Videos - Instant Access Online Watch me build an entire cart from start to finish. The E-Z Built is constructed on a standard, DOT approved utility trailer frame. Then he put it another way, "The only reason I ever hire someone is to make money off them." Those were the words that made it impossible for me to work for someone else ever again. Many said that they already owned a utility trailer, so these plans are designed to a wide variety of trailer sizes. Read on to learn more. Then click on the right side of the enlarged photo to see the next picture, click the left side to go back. Cory Lawrence built his beautiful O'Doggies Cart using our E-Z Built Videos and Plans. Not a Member Yet? Now what was I going to do? We have a long string of firsts - and we're still the best. Contrary to what you may have read in some of the forums, manufactured carts don't pass health inspections any easier than a home built model. No fancy tools or skills required. We'll build it together! Like everything else in this course, these construction videos are instantly available online inside our members-only website. We even invented a unique way to make the firebox with no welding, riveting or fancy sheet metal skills of any kind. The E-Z Built passes the health codes. They must pay you less money than you bring in if they want to make a profit. My crew videotaped the entire construction process step by step. If you can dream it, you can build it. I didn't have the money for a new cart or even a decent used one. Here is what happens when you combine the E-Z Built Video and Plans package with a burning desire to have the cart of your dreams... Lee built his E-Z Built as a stand-in model. But that's just the stock version. Since the body is removable and the trailer frame is unaltered, you simply title it as a utility trailer, not as a food cart. Already a Member? If you have a question just ask it in the form provided below each video and we'll answer it for you. The standard E-Z Built has a full size steam table that holds three 1/3 size pans, PLUS a half size pan over direct heat for fast cooking. That's 150% more cooking capacity which means you can be 150% more profitable. I had done the research and I knew that a lot of people were making really good money at it. This satisfies the vast majority of health codes. One of the most common questions I get is how does a wooden cart pass the health inspection? However, we used 100% brand new parts and materials (including the water pump and heater) and our cost was \$797 complete. Do you want a metal cart? Second, your local codes may not require these features, but if you decide to work a fair or festival in another town the codes may be more strict. Grow your business easily. Watch them on any device, anywhere you have an internet connection. You want your cart to be able to do exactly what you want it to do. You'll see exactly how it's done step by step on video. Let's face it. You may already have some of the more common items at home. So I decided to build one myself. You CAN Build Your Own Hot Dog Cart For \$797 In Hardware Store Parts. Of course the final cost will depend on two factors: how many used parts you can find, and how you choose to equip it. Optional Metal Construction. It's easy to sell your hot dogs in these profitable places where vehicles are prohibited. And in the spirit of keeping it E-Z, there is still no welding, riveting, or sheet metal skills required. It sounds too much like exercise... Seriously, you'll never even know it's behind you. The work you do produces a certain amount of income for the company. Pushable by the smallest of people. If you like the looks of a metal cart, or if your inspector requires metal construction, we've got you covered. In order to really teach people how to do it, I knew I would have to build a brand new and improved cart from scratch and video tape the entire process. You're already saving over \$3000 - spend an extra \$150 for a pump and heater. Any food cart. You will be able to find everything you need at places like Home Depot, WalMart, RV centers, and the local hardware store. The main difference from one location to the next is usually the number of sinks that your cart must have. Mark sent us a video of his enclosed E-Z Built Hot Dog Cart. The longest part is waiting for the paint to dry... Capacity to work the biggest events with ease. Wood and Metal Versions - They're Both E-Z! You Can Also Use These Videos to Fix Up a Used Cart. The only limit is your imagination. So before I agreed to the project I had to tell my students, "I'll build it but I won't release the videos unless the finished cart meets these 10 criteria..." The E-Z Built Hot Dog cart can be built for less than \$500. Third, the trend is toward stricter codes so build your cart to pass now and in the future. One word - paint. No two food vendors serve the exact same foods or use the exact same equipment. The E-Z Built Video and Plans Package now comes with a fifth DVD just for you metal lovers. E-Z Videos Show You How. In fact, it's just as easy to put together as our base model cart. Once you get started, you can hire someone to work the cart and start looking for location number two. Browse through the pictures to get some great ideas for your own E-Z Built hot dog cart. It's E-Z! It is certainly possible to build the E-Z Built for under \$500 with some used items. And besides - unless you're an engineer or draftsman, most people can't build anything from just a set of plans anyway. Click the pictures below for a larger version. If you build them yourself you'll save over \$13,000. Towable behind the smallest of vehicles. No welding, no riveting. I searched everywhere for a good set of plans. If you can butter toast, you can build this cart. However, we also include internet sources for some parts, in case you can't find them near you. Rick purchased the E-Z Built Video and Plans Package... And built a shaved ice cart. And that's when he said the words that made everything click... "When you work for someone else, you get paid less than you're worth..." As he explained it, it's just simple math. Click to play video above. If you can only work on it evenings and weekends, you should finish it in less than two weeks. Nice! As you can see, the plans and videos are a great jumping off point to build a food cart. I got an offer that was too good to refuse and I sold my hotdog business for \$XX,000 (I can't tell you the exact purchase price, but it was well into five figures.) What a pay day! But... Part of the deal was a non-compete agreement. Uses common, locally available parts and materials. Want a Sneak Peak? They are color coded to show the gas, hot water, and cold water lines. It's called "Carts of Cash" and it's available in my Hot Dog Biz 101 package. That is why the E-Z Built Hot Dog Cart was designed from the beginning to be easily customized. No luck. They were worthless. The new "E-Z Built Metal Secrets" DVD will show you everything you need to know so you can hit the streets with a shiny metal food cart, indistinguishable from manufactured units costing \$6000 and more. You also get... Detailed Plans Set CAD drawings with front, back, top, and side views with critical dimensions, and construction details. You can't make a mistake. That's why you will usually have to wait three weeks or more for a manufactured cart that costs \$3200 more than the E-Z Built. No welding. From: Steve Schabile, founder of King Weenie Chicago Style Hot Dogs, Frank and Chips Hot Dogs, and author of the Hot Dog Profits Training System, St. Louis A five minute conversation made me totally unemployable... Like you, I had been thinking about starting my own hot dog cart business but hadn't actually gotten going. Come on over and join me in my home garage as I build an E-Z Built Hot Dog Cart from start to finish (we'll have a few laughs too). If you can drill a hole, screw a screw, cut with scissors, and saw a piece of wood, you can build your own cart. I was not going to give up - I designed my own cart, built it for less than \$500, and started selling hot dogs. Click here to access the training. In fact, the advanced engineering found on the E-Z Built makes it the most copied cart in the history of our industry. First, the water system performs so much better with a pump and heater. The E-Z Built Hot Dog Cart that you'll see in the videos was built to pass very strict codes and includes an electric water pump and propane fired water heater. It's truly E-Z! No special tools or skills required. He built his E-Z Built as an enclosed model for under \$1000. The E-Z Built Cart can be built in many different configurations with a wide variety of equipment. Every county has it's own equipment requirements for mobile food carts. No riveting. You can do it full time (4 hours a day) and make a great living, or just work fairs and festivals on weekends to pay off some debt, or to buy those special things that you and your family could never afford... Like I said, everyone loves my course, but they all ask me... "How do I build a cart like the one you started with?" I couldn't give them a good answer. We also give you sources where to find everything. Why pay thousands more for much, much less? No special tools or skills required. Bill Of Materials With Parts Sources Each and every part is listed along with sizes and quantities. All exposed wood is then painted to seal the porosity. We even give you sources for all the parts. One thing you will notice is how easily the basic plans can be modified to give you the EXACT cart that you've always wanted. Why? A huge benefit of building your own hot dog cart with the E-Z Built Video and Plans Package is that you can grow your business incredibly cheaply and quickly whenever a new location presents itself. I was successful in a rural Missouri town with less than 8000 people. And that's when I ran into a BIG problem. Dale is absolutely killing it in Reno and he is about to build a third E-Z Built to add to his fleet. Have a suggestion, idea, modification, or improvement? We pioneered the use of this technology on food carts. Take a Look... Introducing...The NEW E-Z Built Hot Dog Cart Video and Plans Package Interactive Edition - Instant Access From Your Computer, iPhone, or iPad - Start Building Your Cart RIGHT NOW! If you can butter toast, you can build one of these hot dog carts. The E-Z Built Hot Dog cart is designed to be built using locally available parts and materials. It's just as simple to put together, and our construction method produces a cart that is free from the rattles and flimsiness of traditionally constructed metal carts. If you can dream it, you can build it - it's E-Z! When you finish your E-Z Built Hot Dog Cart please send me some pictures of it so I can post them here. The only thing you may not be able to find locally is the water heater, but we'll tell you the best place to order it from. You can use the form to share it with your fellow HDP Premium Members. You are never alone. I was prohibited from selling hot dogs for one year. This course is included in the Premium Training. We have to build each cart to the customer's local health code." The truth is each and every cart must be custom built. Bare wood is a no-no, but if the cart is painted inside and out 99% of the inspectors pass it - no problem. Use the one which matches the number of sinks you will be installing. You can follow the videos to a "T" and build the yellow hot dog cart that you see at the top of this page, or let your mind take flight and customize your cart to serve all sorts of gourmet street foods. Dale is a full time hot dog vendor running two E-Z Built Hot Dog Carts in Reno Nevada. Order a cart from a manufacturer and the first thing he will say is, "What equipment do you need? Check out these photos sent in by E-Z Built customers from around the world. The E-Z Built was designed to be all the cart you'll ever need. Many of the parts used to build this cart can be purchased used at flea markets and garage sales. Just watch my "Metal Secrets" video (included) and you'll end up with a bright, shiny metal cart in no time. Because this business is so inexpensive to start and it succeeds for just about every one who is willing to work at it. After golf got boring, I got the idea to create a course teaching other folks how to start a hot dog vending business. The best part is there's no guess work. That is exactly what Jack did. You can easily stretch the cart body to give you room for a SECOND cooking station PLUS a grill, PLUS a flat top griddle, PLUS a... well you get the idea. Want to work the big fairs, festivals and car shows? The basic E-Z Built model is constructed with thin plywood over a simple wooden frame. I never release a course unless it gives everyday folks every possible advantage. Builds lightning fast so you can start making money now. I suggest incorporating the hot water system into your cart for three reasons. One day I decided to ask a very successful self-employed friend for advice. Many health departments require you to submit schematics during the inspection process. The plans come with a detailed Bill of Materials that lists every single thing you will need, all the way down to the number and type of screws. Here's why... Most manufactured carts only have three 1/3 size pans. Just follow along and do what I do - you can't make a mistake. He used hollow core doors (genius!) to create the "house" and then outfitted the interior with steamers, sinks, water heater, etc exactly as shown in our video and plans package. You'll save \$2700 over a similarly equipped manufactured unit from the quality cart builders. Factory built carts have notoriously bad water systems. You can make it as big as you want, mount any equipment you want, and configure it any way you want. The cart body is bolted to the frame, not welded. We've got you covered! Our construction technique produces a cart so light that it can be pulled by a bicycle, but I personally wouldn't try it. It was time to start my hot dog vending business. He used a larger trailer frame and torsion axles so he could stand in the middle of the action! Mark Hentrich operates "Good Doggy Hot Dogs" in Michigan. Read this whole page to learn how. Just follow me and do what I do in each video. We also tell you how to find out exactly how your cart must be set up so you will be assured of passing before you even start building. I settled for a cheap set of plans on eBay. During the design process we solicited input from our Carts of Cash Hot Dog Cart Course students. Our plans come with four different sets of schematics so you can equip your cart with up to four sinks. It was (and still is) a huge seller. Easily titled. No problem. Easily customized. These high quality drawings will definitely "grease the wheels" during the permitting process. I threw 'em in the garbage. Tow it close to your location, un-hitch it, then use the built in handles to push it down the sidewalk or through the park. After you watch the step by step videos you will know how to build your dream cart - the one that until now has been out of reach. I didn't have any real plans on paper, just some sketches. Our package includes four different schematics. He built them himself using our video and plans package. My business was so successful that in the space of one year I had five people who wanted to buy it. Full Color Health Department Schematic Drawings "Schematics" are simply drawings which show the different systems on your hot dog cart. Most codes prohibit porous surfaces in a food prep area. Also included is a sourcing guide that tells you exactly where to find everything you need.
